

Dokoyoh®

by GHINES

Made in Italy

Flexible universal diamond disc

Dokoyoh is available in three different diamond mesh sizes:

green	coarse grit
red	medium grit
yellow	fine grit

- > **Smooth application without any vibration!**
- > **High performance!**
- > **User friendly!**

.....

The greatest innovation for grinding and sanding: **the flexible diamond disc!**

This tool is made of a steel diamond-coated spiral built on a rubber support. It can be used on a variety of material without the usual troublesome vibrations. Available in three different diamond mesh sizes, Dokoyoh can successfully replace, on electric tools, every abrasive product now existing.

TRY IT!

DOKOYOH GREEN > coarse grit

Dokoyoh Green

A professional tool recommended for large stock removal. If used at the right speed it is extremely effective on concrete, rubber and wherever big removal is necessary.

DOKOYOH RED > medium grit

Dokoyoh Red

Excellent for grinding and honing on stone, marble, engineered stone, concrete, etc. The specially designed spiral crosses the diamond signs thus ensuring a very good honing.

DOKOYOH YELLOW > fine grit

Dokoyoh Yellow

Recommended for finishing jobs on every kind of material. Ideal for bevelling on ceramic materials and glass.

M14 or 5/8" threaded flanges available

Patent n. 0001384328
